

Genie

THE TECHNOLOGIES

Genie, the genius of small environments. Equipped with a parabolic squeegee it provides the best hygiene in any situation

The Genie scrubbing machine is ideal for easily cleaning small commercial environments, laboratories, waiting rooms and gyms.

The parabolic squeegee constantly follows the direction of the machine and allows you to scrub and dry also in bends. In addition to the scrubbing model, both in electric (Genie E) or battery (Genie B) versions, also a scrubbing-sweeping model is available (Genie BS): this latter allows you to get the maximum work done in a single operation, since it can also pick up small residual solids.

- The innovative parabolic squeegee allows you to scrub and dry perfectly even in bends without having to follow a straight path
- The handlebar can bend 180° to facilitate handling, cleaning under tables and to be stored at the end of work
- The automatic brush and squeegee adjustment system allows the machine to be used automatically on any type of floor, thereby saving energy

MICRO

TECHNICAL DATA		Genie E	Genie B	Genie Bs
Working width	mm	350	350	335
Squeegee width	mm	440	440	525
